ANNUAL INDEX

Following is the comprehensive index for volume 139 of the *Journal*, which covers all material from January 1982 to December 1982. The complete citation for each article in the author index is listed under the name of the first author. Coauthors are listed alphabetically with a cross-reference to the first author; cross-references containing multiple first author names separated by semicolons indicate multiple articles by the coauthor. Book reviews appear in the author index under the name of the reviewer and in the subject index under the heading Books Reviewed; the books reviewed are arranged alphabetically by the surname of the book's first author or editor. In addition to being indexed by author name, letters to the Editor regarding articles published in 1982 are indicated in parentheses after the citations for those articles.

Each entry in the subject index is identified by the surname of the first author only; semicolons between names of authors of letters to the Editor indicate multiple letters. All entries are in abbreviated style, and two-letter abbreviations are used for months. Entries other than Special Articles, Regular Articles, Brief Communications, and Clinical and Research Reports are given the following designations: editorial (edtl), In Memoriam (in mem), book review (bk rev), letter to the Editor (ltr to ed), and Official Actions (off acts). Corrections to 1982 articles are cited with the articles to which they refer, and all corrections printed in 1982 are listed under the heading Corrections in the subject index.

improper control group for adopted-away offspring (ltr to ed). Huessy, Ja, 140
relinquishment and its maternal complications, preliminary study. Rynearson, Mr, 338–340
Affective Disorders see also Depression; Mania
in adolescents, misdiagnosis of (ltr to ed). Keitner, No, 1527
amoxapine-induced agitation among bipolar depressed patients (ltr to ed). Barton, Mr, 387
another study of manic-depression among poor blacks (ltr to ed). Freed, Ja, 141–142
bipolar, persistent elevation of thyroid-stimulating hormone in women with. O'Shanick, Ap, 513–514
bright artificial light treatment of manic-depressive patient with seasonal mood cycle. Lewy, No, 1496–1498
bulimia related to affective disorder by family history and response to dexamethasone suppression test. Hudson, My, 685–687 (ltr to ed: Wolf, No, 1523–1524)
carbamazepine treatment of selected affectively disordered inpatients. Folks, Ja, 115–117
cerebellar vermis dimensions on computerized tomographic scans of schizophrenic and bipolar patients. Lippmann, My, 667–668
cholinergic regulation of mood and REM sleep, potential model and marker of vulnerability to affective disorder. Sitaram, My, 571–576
dehydroepiandrosterone and (ltr to ed). Hansen, Mr, 386–387
depressive symptoms and diagnosis of affective disorder in clinic population of low socioeconomic status. Wold, Jy, 916–918
dexamethasone suppression test in outpatients with primary affective disorder and healthy control subjects. Amsterdam, Mr, 287–291 (ltr to ed: Carroll, No, 1522–1523)
diagnoses of blacks with affective disorder (ltr to ed). Clayton, reply of Jones, Au, 1082
drug-induced rapid cycling, possible outcomes and management. Oppenheim, Jy, 939–941
DST during drug-induced switch from depression to mania (ltr to ed). Schaffer, Au, 1081
dyskinesia and unipolar depression (ltr to ed). Appelbaum, Ja, 140–141; correction, Mr, 387
effect of dexamethasone on plasma prolactin and cortisol levels in psychiatric patients. Meltzer, Je, 763–768
effectiveness of verapamil in treatment of manic patient. Dubovsky, Ap, 502–504
high plasma norepinephrine levels in patients with major affective disorder. Lake, Oc, 1315–1318
Iowa 500, affective disorder in relatives of manic and depressed patients. Winokur, Fe, 209–212
lithium prophylaxis of depression in unipolar, bipolar II, and cyclothymic patients. Peselow, Je, 747–752
lithium prophylaxis of tricyclic-antidepressant-induced mania in bipolar patients. Jann, My, 683–684
lithium ratio and hypertension in manic-depressive patients. McCoy, Fe, 247–248
mania responsive to lecithin in 13-year-old girl. Schreier, Ja, 108–110
noradrenergic drugs and (ltr to ed). Abensour, Ja, 142–143
phenelzine treatment without switch to mania (ltr to ed). Keitner, Mr, 386
prevalence of affective disorder in sample of young men. Schuckit, No, 1431–1436
progression of olfactory reference syndrome to mania, case report. Davidson, De, 1623–1624
prolactin secretion in (ltr to ed). Mendlewicz, Mr, 385
"refractory" patients and loxapine, schizophrenia or mania? (ltr to ed). Steele, reply of Ereshefsky, My, 701–702
sexual histories and premenstrual affective syndrome in psychiatric inpatients. Friedman, No, 1484–1486
study of *DSM-III* schizophreniform disorder. Fogelson, Oc, 1281–1285
therapeutic use of tricyclic-induced switch in bipolar manic-depression. Waters, Fe, 245–246
L-tryptophan in maintenance treatment of bipolar II manic-depressive illness. Beitman, No, 1498–1499
Aftercare
outcome of deinstitutionalized patients (ltr to ed). Glick, reply of Braun, Je, 843–844
relapse of psychiatric patients in foster care. Linn, Je, 778–783
